## SCHLEY

### TO BE PRAISED AS AN ABLE, GALLANT OFFICER

#### WHO DID HIS FULL DUTY IN THE SANTIAGO BATTLE.

#### THE ADMIRAL MAY BE CRITICIZED

#### For Ordering Retrograde Movement and for Stopping at Cienfuegos. Guesses on Court Decision.

Washington, Dec. 6.—While publication in the morning papers to the effect that Admiral Schley will be condemned on five counts is considered here as only a guess, the best informed naval officers expect the verdict to be something like this:

That Schley will be praised as an able and gallant officer who did his full duty in the battle of July 3; that his blockade at Cienfuegos and Santiago were close and effective but he erred at lingering at Cienfuegos from May 22 to 24, and in ordering the retrograde movement of May 26. It will be a week before the decision is given to the public.

New York, Dec. 6.—A Washington dispatch to the Herald is as follows:

Admiral Dewey and his associates on the Schley court of inquiry are putting the finishing touches upon their findings.

In well informed naval circles it is believed the Court will find Rear Admiral Schley derelict in several respects.

That Admiral Schley should not be censured for the alleged slow voyage made by the flying squadron from Cienfuegos to a point to the southward of Santiago.

That there is no foundation for charges of cowardice directed against the commanding officer of the flying squadron, who, on the other hand, showed himself to be a brave and gallant officer.

That the bombardment of the Colon at the ranges employed by Rear Admiral Schley was justifiable in view of the prohibition against the exposure of armorclad to the fire of shore batteries.

That the blockade maintained by the flying squadron at Cienfuegos and Sanfago was entirely effective.

That the loop executed by the Brooklyn was a maneuver, the necessity for which had to be determined by the officer at the moment it was ordered.

That throughout the battle the Brooklyn played a conspicuous part, and that in the battle Rear Admiral Schley did his full duty.

## COL. MEADE

### Completely Exonerated and Now the Colonel Will Prefer Charges Against His Accusers.

Washington, Dec. 6.—The Navy department today read the findings of the court martial of Colonel Robert L. Meade of the marine corps. The court completely exonerates Colonel Meade. Colonel Meade will immediately prefer charges against Colonel Dennis and Major Laueheimer who caused his trial. The charge against Meade was drunkenness.

KITCHENER'S REPORT.

London, Dec. 6.—General Kitchener telegraphs from Pretoria today: "Bruce-Hamilton reports that on December 3 he followed Spoor's command and completely surprised their laager on Osbeck taking 93 prisoners and 26 wagons. Colonel Dawkins reports that with Colenbender, Northern District, that he captured 104 prisoners."

#### FORAKER WEDDING.

Cincinnati, O., Dec. 6.—The date for the wedding of Miss Julia Foraker daughter of Senator Foraker and Francis King Wainwright of Philadelphia, has been set for January 8. It will occur in Washington.

#### TEAXS WHITE CAPPERS.

Fort Worth, Texas, Dec. 6.—White cappers are terrorizing negroes at Shiner. Notices have been posted over the town stating that negroes without homes must leave or suffer the penalty of death. Trouble is feared.

#### GEN. SMITH'S DEATH.

Jackson, Miss., Dec. 6.—Brigadier General James Argyle Smith, died this morning. He will be given a state funeral.

Silk is the strongest of all vegetable or animal threads. It is three times as strong as a flaxen thread of the same size.

## LONGEST

### Electric Line in the World the Lorain-Sandusky Road is Completed Today.

Lorain, Dec. 6.—With the completion of the electric line from here to Sandusky today, it is now possible for the Lake Shore Electric railway company to run cars from Painesville and Akron through Cleveland and Toledo and lake shore towns to Detroit and Mt. Clemens Mich. It is the longest electric system in the world.

BOOKER WASHINGTON. Springfield, Mass., Dec. 6.—Booker T. Washington, the famous colored educator, who dined at the White House with President Roosevelt was refused accommodations at three Springfield hotels Wednesday night. He finally procured a room at the Russell hotel. The hotels which are said to have turned him away are the leading houses of the city.

## ON ROOF

### PRISONER PELTED POLICE WITH SLATE

#### HOLDING OFFICERS AT BAY FOR MANY HOURS.

#### GREAT CROWDS WATCHED FUN.

Traffic About the Jail Was Suspended.  
Finally Officers Made a Rush and Got the Man.

London, Dec. 6.—People here are reminded of the funny incident in Paris in 1899, when M. Guerin and other Royalists were besieged in Guerin's house and held it for days against the police. Yesterday a prisoner at Pentonville named Tugwell escaped to the roof of the jail and refused to come down and has been pelting the police with slate and keeping them at bay for hours. Dense crowds are watching the circus. This morning the prisoner who is in his bare feet is hopping about the roof in the frosty air while a hundred police stand round the jail waiting for him to be frozen into subjection.

By noon today traffic was suspended on all streets neighboring on the prison, on account of the crowds. Finally the police, advancing from several directions and dodging the shower of slates hurled at them, grabbed Tugwell and brought him down.

#### KITCHENER'S REPORT.

London, Dec. 6.—General Kitchener telegraphs from Pretoria today: "Bruce-Hamilton reports that on December 3 he followed Spoor's command and completely surprised their laager on Osbeck taking 93 prisoners and 26 wagons. Colonel Dawkins reports that with Colenbender, Northern District, that he captured 104 prisoners."

#### RELEIVED OF DUTY.

Washington, Dec. 6.—Secretary Long today cabled Captain Perry of the Iowa, directing him to issue orders relieving from duty on the Isthmus the battleship Iowa and gun-boat Machias.

#### NEW ARCHBISHOP.

Rome, Dec. 6.—The Vatican has chosen as Archbishop of Manila an American who is now Bishop of Western Diocese. His name is kept secret as his acceptance of the bishopric has not yet been received.

## EXPERTS

### CALLED BY DEFENSE IN THE BONINE TRIAL.

#### CELEBRATED TRIAL DRAWING TO A CLOSE.

#### MANY WOMEN PRESENT TODAY.

Points Brought Out in the Case During the Day—To Jury Probably Tuesday.

Washington, Dec. 6.—In the Bonine murder trial, the government has held that the fatal shot could not have been fired while Ayres and Mrs. Bonine were struggling in his room Ayres, according to her statement, held her from behind while she gripped the pistol in both hands, the weapon being discharged in the scuffle. By practical demonstration the defense has shown the defendant, who is but four feet eleven inches high, would have been so far below Ayres' shoulder as to have permitted the passage of a bullet from the pistol into his chest at the point where it entered.

Several witnesses have stated that the hand print on the window sill and curtain were made by a small hand, that the wrapper and slippers had blood stains upon them and that Mrs. Bonine was at the time of the tragedy in a physical condition that would repudiate any imputation that has motives in going to Ayres' room were impure. The bruises on the body of Mrs. Bonine were, according to the testimony of several experts, received during a struggle, and could not likely have been received any other way.

The government has been trying hard to convey the impression to the jury that jealousy was the motive prompting the crime, but has as yet failed to disclose the other woman in the case.

Dr. Carroll, the microscopic expert, for the defense, was recalled this morning to further prove the presence of blood on the garments worn by Mrs. Bonine on the night of the tragedy. Dr. Carroll is the scientist who went to Cuba and submitted himself to the bites of yellow fever infected mosquitoes for the sake of practically demonstrating the value of the alleged antitoxin for yellow fever.

More women were present than on any previous day of the trial, fully nine-tenths of the audience being composed of them. They packed the entire rear portion of the court room today.

Owing to the absence of Doctor Carr and Bovée, who were engaged in a surgical operation and could not be present for examination, the court at 10:45 took a recess until 1:15 this afternoon. The case will probably go to the jury next Tuesday evening.

Washington, Dec. 6.—Experts called by the defense continued their testimony at the trial of Mrs. Lola Ida Bonine, charged with the murder of James S. Ayres Jr. in May last. The evidence related almost entirely to the state of Mrs. Bonine's health at the time of the killing. Maurice Bonine her son, was recalled, and stated that it was custom to carry the family washing to the laundress, who herself gave evidence as to the nature of the garments brought to her on the day following Ayres' death. George W. Thompson, colored, a former employee of the Kenmore, testified that he had overheard Mrs. Bonine, Mr. Bonine and Ayres talking about chemistry and medical subjects.

#### THE CROPSY CASE.

New York, Dec. 6.—A dispatch from Elizabeth City, N. C., received states that three fishermen arrived there last night from a trip up the Pasquotank river and reported that the body of a woman had been washed ashore at Sand Hills, a lonely spot six miles east of Elizabeth City. If the report is true, the dispatch declares the authorities say it must be the body of Nell Crospsey who so mysteriously disappeared on November 20. Authorities started an immediate investigation.

#### DEATH AT GRATIOT.

Mrs. Sarah Drumm, wife of Mr. Richard Drumm, residing at Gratiot, this county, died this morning after an illness of several weeks with heart trouble.

## REVIVAL

At Wooster Conducted by Cornell and English is the Greatest in the Town's History.

Cornell and English, who conducted a very successful revival meeting at the First Methodist church here not long ago, are now engaged in similar work at Wooster, Ohio. The measure of the evangelists' success is given in the following from Wooster:

Wooster, O., Dec. 6.—From 11:30 to 1:30 Thursday practically every mercantile establishment and many places where liquor is sold were closed so that the proprietors and employees could attend a revival meeting held in the Methodist church. The city during the last two weeks has passed through the greatest revival in the history of the place. The meetings are in charge of two traveling evangelists, Cornell and English.

## TOWN

### OF WILMINGTON LOOTED THIS MORNING.

#### GAGGED B. & O. OPERATOR HALL AND BLEW SAFE.

#### BURGLAR ANSWERED THE PHONE

Cracked Two Other Safes and Stole Four Horses, Then Escaped Toward Cincinnati.

Wilmington, O., Dec. 6.—This town was looted by a gang of masked burglars early this morning. At 1 o'clock they entered the B. & O. railway station, gagged night operator Hall and tied him to a chair. They then blew the safe and robbed the money drawer of \$30 and a quantity of railroad tickets.

While they were at work in the station the telephone bell rang and one of the burglars answered the call. In answer to a question he said the conductor of a night freight train was in the office.

Leaving the operator securely bound the cracksmen broke into Langdon's elevator, blew two safes and secured \$100 and valuable papers. They also robbed several residences, stole four horses and buggies and made their escape towards Cincinnati before their arrival.

Washington, Dec. 6.—The House was called to order at noon today and the committees on ways and means and appropriations were announced. At 12:08 p.m. the House adjourned to next Tuesday.

Washington, Dec. 6.—The Senate was before it for ratification or rejection the new canal treaty drafted jointly by Secretary of State Hay and the British ambassador, Lord Pauncefote. The text of the document follows:

Article I. The high contracting parties agree that the present treaty shall supersede the convention of April 19, 1870 (the Clayton-Bulwer Treaty).

Article II. It is agreed that the canal may be constructed under the auspices of the government of the United States either directly at its own cost or by gift, loan or mortgage to individuals, corporations or through subscriptions to or purchase of stock or shares, and that subject to the provisions of the present treaty the said government shall have and enjoy all the rights incident to such construction, as well as the exclusive right of management for the regulation and management of the canal.

Article III. The United States adopts as the basis of the neutralization of such ship canal, the following rules substantially as embodied in the Constantinople convention signed Oct. 28, 1888, for the free navigation of the Suez canal, that is to say:

"1. The canal shall be free and open to vessels of commerce and of war of all nations observing these rules on terms of equality so that no nation shall be entitled to any privilege or immunity which may be enjoyed by any other nation.

"2. The canal shall never be blockaded,

"3. No act of hostility shall be committed with respect to the canal.

"4. The United States, however, shall be at liberty to maintain such military force along the canal as may be necessary to protect it against lawlessness and disorder.

"5. Vessels of war of a belligerent shall not evacuate or take any stores from the canal except so far as may be strictly necessary and the transit of such vessels through the canal shall be effected with the least possible delay in accordance with the regulations in force, and with only such intermission as may result from the necessities of the service.

"6. Prizes shall be in all respects subject to the same rules as vessels of war of the belligerent.

"7. No belligerent shall embark or disembark troops or munitions of war or warlike materials used in the canal except in case of accidental hindrance of the transit, and in such case the transit shall be resumed with all possible dispatch.

"8. The provisions of this article shall apply to the waters adjacent to the canal, within three marine miles of either end.

"9. Vessels of war of a belligerent shall not remain in such waters longer than 24 hours at one time except in case of distress, and in such case shall depart as soon as possible but a vessel of war of one belligerent shall not depart within 24 hours from the departure of a vessel of war of the other in like manner.

"10. The plant, establishments, buildings and all works necessary to the construction, maintenance and operation of the canal shall be deemed to be parts thereof for the purposes of this treaty, and in time of war, by its power, shall enjoy complete immunity from attack or injury by the belligerents, and from any acts calculated to impair their usefulness as parts of the canal.

"11. Article IV. It is agreed that the change of territorial sovereignty of internal relations of the country in countries bordering on the neighborhood of the canal shall affect the general principles of reorganization of the government of the high contracting parties under the present treaty.

"12. Article V. The present treaty shall be ratified by the president of the United States and with the advice and consent of the Senate of the state, and shall be

**THE FOUR VICE ADMIRALS SCHEME.**

There appears to be a foundation for the rumor that the navy department clique will attempt to worry through congress a bill creating four vice admirals. It is said that if such a bill should pass it would be in view of promoting Rear Admiral Sampson at the head of the list.

The admiral of the navy holds the same comparative rank as a full general in the army. Dewey is an admiral. Our army has no general. It is commanded in theory by Miles, a lieutenant general. A vice admiral ranks comparatively with a lieutenant general. The navy clique plan is such as an army clique plan would be to create the office of general and to provide for four lieutenant generals.

It is a wonder that Corbin of the army clique has not joined Crowninshield of the navy clique in the scheme to press a joint measure to create two illustrious quartets of these sort. If the two aspirants could manage to obtain promotion under a law of the kind the new rank would fit them nicely as representatives of the United States at the coronation of Edward VII.

But for the efficacy of the naval service the United States government does not need four vice admirals any more than it needs four lieutenant generals or than a cat needs four tails. It would be a superfluity of richness and create a gorgeous overflow of splendor which our navy and army can get along without.

But the office of vice admiral should be created for the reward of a distinguished hero of the navy as the office of admiral was created for Dewey's reward. The law creating the office should provide for the appointment of a retired officer to fill it. The office should be created and conferred on Admiral Schley, the brilliancy of whose services is unsurpassed by any man who ever served on land or sea under the American flag.

The notion of making Sampson a vice admiral is absurd beyond description. He was saved from being a witness at the Schley trial by the statement of his friends that he was physically and mentally unable to appear and testify. Schley never was more fully in possession than he is now of all his bodily and intellectual powers.

There should be no vice admiral unless Winfield Schley is appointed to fill the office.

**A CHICKEN COMING HOME TO ROOST.**

The new German tariff is up for discussion in the reichstag. Should it be enacted it will hit American interests very hard by raising the duties on the food products we send to Germany nearly 100 per cent.

Like the Dingley law in this country, which is the Republican party's boast, the new German tariff is protection run mad. Thus the duty on American flour, at present \$17.40 per ton, is raised to \$32.10, while the duty on wheat per ton jumps from \$8.30 to \$15.40, and the duty on corn is increased from \$3.80 to \$9.50. Our exports of the latter cereal have not been very important, but the Germans have been generous buyers of other breadstuffs from the United States.

Large quantities of American meats have also been imported regularly into Germany, as well as a great deal of machinery and many other products of our factories. On all these the duties are largely increased by the proposed tariff.

In the absence of a reciprocity treaty with Germany, and in our Congress the Republicans by a large ma-

jority are against reciprocity with other nations or reduction in the Dingley rates, this new German tariff, should it be enacted, will largely diminish the market for American products. Germany hitherto has ranked second only to Great Britain as a valuable customer of the United States. It was the German situation that President McKinley had in view in his plan for reciprocity at Buffalo. From the protectionist standpoint we cannot blame the Germans for seeking our methods of protecting their home producers. The chickens are coming home to roost. We have challenged an alliance of European nations in a commercial war against the United States, and are likely to have it.

The German tariff though, will meet strong opposition from large classes of consumers before it is enacted into law. German wage workers and socialists are vehement against it.

Congressman Dalzell, the Republican high tariff priest of Pittsburgh, in discussing reciprocity says "we must be very careful not to build up one industry at the expense of another." True, true. It would be very painful if the republican party in its attempt to modify a tariff system which owes whatever success it has had to the one fact that it is based on the principle of laying many industries under contribution for the benefit of some industries should discover that reciprocity was going to work the same way. Tariff and reciprocity legislation which did not promise to build up one industry at the expense of another would not interest the Dalzells for a minute.

**PRESIDENT GOMPERS URGES THESE.**

Annual Reports of Officers of the American Federation of Labor Read Before the Convention—Strikes and Lockouts During the Past Year. Receipts and Disbursements.

Scranton, Pa., Dec. 6.—Over 250 delegates to the American Federation of Labor convention were in the hall where President Gompers rapped the session to order. Organization, settlement of questions involving contested seats and the reading of the annual reports of the president, secretary and treasurer took up the entire time of the convention.

The annual report of President Gompers showed a net increase of 311 local unions for the year and a gain of 364,410 members. From national and international unions and the federation direct there were issued 4,056 charters for newly formed unions, and charters surrendered or unions disbanded numbered 1,150. On Oct. 31 last there were affiliated with the federation: National and international unions, 87; city central labor unions, 27; state federations of labor, 29; local trade unions, having no national or international, 750; federal labor unions, 389.

To create a defense fund the report recommends changing the federation's constitution so as to admit of a larger assessment. The report denounces the employment of young children and contends for greater organization among women workers. Mr. Gompers says he has arranged an active campaign for the re-enactment of the Chinese exclusion act and expresses surprise at the "patience of the Pacific coast citizens in submitting to a state of affairs so horrible and degrading, it arraigns Chinese immigrants as lowering American standards."

There were four strikes of different character during the year. About these the report says that of the river and dock workers of San Francisco was a distinct victory. The purpose for which the strike of the Amalgamated Association of Steel and Iron Workers was inaugurated was not achieved, and it was terminated upon conditions less advantageous than perhaps could have been obtained. Owing to the widespread interest this strike aroused, a large number of iron and steel workers employed by other companies than the corporation against which the strike was inaugurated have been organized under the jurisdiction of the Amalgamated Association. Officers of the International Association of Machinists report that their strike has very largely succeeded in establishing the nine-hour rule in that trade.

Another Immigration Bill.

Washington, Dec. 6.—Senator Penrose introduced in the senate a bill for the regulation of immigration prepared by himself and the committee general of immigration, which looks to a general revision of the laws upon this question.

The measure provides for a duty of \$2 per head on all persons coming into the United States from foreign countries except those that are citizens of this country or of Canada or Mexico, the fund to be raised to be applied to the payment of the expenses incident to the regulation of immigration.

The bill excludes all idiots, paupers and persons liable to become a public charge, and those afflicted with loathsome or contagious disease.

It prohibits assistance in matter of passage and provides heavy penalties for the importation of women for immoral purposes.

Steamship companies are prohibited under heavy penalty from advertising for foreign business.

**New Treaties.**

Washington, Dec. 6.—The senate received from the president the treaties renewing the reciprocity treaties, and in the executive session referred them to the committee on foreign relations. The principal renewals are with Great Britain and cover the British West Indies. The extradition treaty with the Argentine republic and the trade mark treaty with Guatemala also were received by the senate and were referred without debate.

**Ruling on Bankruptcy Law.**

Macon, Ga., Dec. 6.—Judge Emory Speer decided that the bankruptcy laws have superseded all state laws in insolvency proceedings, and that receivers appointed by state courts in insolvency cases cease to have authority and must be compelled to surrender assets to the authorized officer of the bankruptcy court when called upon to do so.

The decision was the outcome of a hearing had upon state court receiver T. J. Carling's refusal to turn over to the bankruptcy court assets in his hands belonging to the Nacon Sash Door and Lumber company.

Washington, Dec. 6.—In compliance with the suggestion of Senator Platt of Connecticut, chairman of the committee on Cuban relations, the Cuban commissioners now in this city have prepared the draft of a bill designed to carry out their views for remedial tariff legislation for the island. This provides for the admission to the United States free of duty after Jan. 1 next of Cuban molasses and raw sugar up to No. 16 Dutch standard, and the admission of all other Cuban products to the United States on payment of half the prevailing duty. In return for this favor the bill provides that the Cubans must first agree to admit to the island for half the duty charged all other nations the products of the United States.

If you find you are losing your weight or if you are thin and weak—take Vinol with your meals and see how quickly you will gain flesh.

## How Mrs. Jennie Gove Gained Seven Pounds.

Mrs. JENNIE GOVE, of Biddeford, Me., says: "She was all run down, no appetite, tired and no ambition for work. Her stomach had faint feeling in the morning. We persuaded her to try Vinol, which she did. She gained seven pounds in two weeks. From the first dose she began to feel better and now is strong and has plenty of appetite."

## How Vinol Caused a Gain of Over 20 Pounds.

Mrs. N. B. JENNER, of Lakewood, N. Y., says that she wishes to make statement as regards Vinol. "My normal weight is 175 pounds. When I began taking Vinol I weighed no more than 100 pounds. Everybody thought I was going to die with consumption. I had three of the best doctors who did me no good, and I was practically given up to die. I could keep nothing on my stomach and vomited day and night. One day Messrs. Clark Bros. kindly sent me a little book on Vinol and my folks decided as a sort of last resort to get me a bottle, which I began taking, and to the astonishment of all I began to get better. Have taken not all of two bottles yet, and have gained in weight over 20 pounds and more than that in strength. I am satisfied that I would not have lived a week longer had I not commenced taking Vinol."

Because Vinol is delicious, and because it does contain these much-sought-after medical properties of cod-liver oil without the disagreeable grease, we endorse it, and we unhesitatingly proclaim that it is better than any preparation of cod-liver oil or tonic rebuilders we have ever had in our store. Your money back if you don't think so after you use it.

## COSMOPOLITANISM Greater Than PATRIOTISM

By Professor BENJAMIN TERRY of the University of Chicago

MORE serious than the cosmopolitan philosopher's misinterpretation of history is his misconception of the nature and aims of patriotism. To him apparently patriotism consists not so much in the love of one's country as in the hatred of other nations. Hence this kind of a patriot must be always ready to assail those who deify war or denounce as traitors those who dare to plead the right of other nations.

Now, unquestionably the attitude which the public press, both of England and America, has assumed toward the men who have dared to question the justice of the wars which these states have been waging for the past two years gives too much color for this eulogy of patriotism, and I DO NOT WONDER THAT MANY A TRUE MAN FINDS IT IN HIS HEART TO SAY, "IF THIS THEN I WANT

It is claimed by the philosopher that the time has come when, in the interest of the next great nation, PATRIOTISM MUST BE RELEASED FROM THE OUTGROWN VIRTUES, that under the tutelage of a clearer visioned Christianity we must reconstruct our ideas of civic virtue after a larger pattern, in which the object of devotion shall be not country, but mankind. Such objects as land spoiling or mere commercial advantage or the extension of some militant creed or, worse, mere military ambition are no longer accepted as sufficient ground of war. In the place of this old war of the wilderness, where might was right, we have erected a new tribunal—the moral sentiment of Christendom, which frowns upon all war that is not waged directly in the interest of humanity.

## PATRIOTISM MAY SOMETIMES BE UNWISE OR IMMORAL, BUT COSMOPOLITANISM NEVER.

It is patriotism that says, "Our country—may she always be right; but our country, right or wrong." While often patriotism has led to real wrong, it is impossible to imagine a situation in which genuine cosmopolitanism could lead to anything wrong in principle or injurious in act.

TO SAVE AMERICA WE MUST SAVE THE WORLD. WHO KNOWS WHAT LANDS OR ISLANDS WE SHALL SOON BE CALLED TO RULE? IN THE WIDENING OF OUR BORDERS AND THE INCREASING INTERMINGLING OF INTERESTS WITH ALL PEOPLES COSMOPOLITANISM IS THE TRUE PATRIOTISM.

## RAILROADS.

### ACCIDENT IN SHOP.

W. D. Hartupe, a machinist's apprentice at the B. & O. shops met with a painful accident Thursday. While working, a tool slipped and caught the two middle fingers of the left hand. The nails were torn off and the ends of the fingers badly crushed. Dr. L. M. Smith dressed the wounds.

### SHORT OF WATER.

Fostoria, O., Dec 6.—The five railroads passing through the city were notified that water would not be furnished them hereafter. The Lake Erie and Western has arranged to ship water from Sandusky with which to supply engines at this point. The waterworks people hope that by shutting off railroads they can supply other customers.

### DENIED BY HILL.

New York, Dec 6.—The Commercial Advertiser printed the following statement made by James J. Hill, President of the Great Northern Railroad: "I have no intention or desireing the presidency of the railroad company. Furthermore I am not going to give up my home or residence in St. Paul."

### WILL BE COMPLETED TODAY.

Findlay, O., Dec 6.—The absorption of the Findlay, Ft. Wayne and Western by the C. H. & D. will be completed today. Auditor Lishawa and party were here yesterday completing details. General Freight and Passenger Agent Frank Garrison of the absorbed road becomes General Agent of the C. H. & D. for Indiana, with headquarters at Ft. Wayne and other officers of the old company will be distributed over the C. H. & D. The shops in this city will be opened by the C. H. & D. for general repair shops of the system.

# Our Christmas Opening

Was the most successful ever held--crowded to the doors all afternoon and everybody was pleased and complimented our display. The exclusive lines handled comprise the nicest we could buy.

All the new things in Silver Novelties, in the New French Grey finish--Real Ebony and also the Ebonoid Sets and Separate Pieces--Stag Handle Desk Pieces, ranging from \$1 to Handsome Massive Stag Rolling Blotters at \$10 each. Gum Metal, the choicest of all Novelties is shown in Small Pocket Pieces for Men, also some Vases at \$5, \$8.50 and \$15 that are not very large but of the finest of this finely finished imported metal.

## In the Large Cosy Corner

You can spend an hour agreeably. Customers tell us our pictures are nicer than ever. They are the best. This corner is full of Indian pieces, such as pipe racks, burnt leather pillows, burnt leather hangings. Also many small desk pieces in this new finish. The burnt wood line consists of bread plates, desk pieces and all the odd and pretty pieces one could suggest.

## Handkerchiefs at \$15 and \$22

Might surprise you. They did us. They are so fine. These were shown at Paris Exposition and were all made by hand in a French convent. Even the plain linen centers were woven by hand and are so fine and have such a sheen that they look like silk and linen. They are all linen and the fine shadings in the rose designs show the fineness of the work.

YOU OUGHT TO SEE THESE BEFORE THEY ARE SOLD.

\$22.00 Each.

**Smuggling Alleged.**  
Rutland, Vt., Dec. 6.—Hearing in several cases of alleged fur smuggling from Canada to the United States across the Vermont border, which were scheduled to come up here this week, have gone over to the February term of the United States grand jury. Fred Stebbins of White River Junction and M. M. Dean and L. L. Johnson of Albion, Vt., are the persons accused, and they are under bail pending a hearing. The February sitting of the grand jury is at Burlington, which will transfer the cases to that city.

**Roosevelt In Oil.**  
Chicago, Dec. 6.—"Roosevelt at San Juan Hill" is to be the subject of a painting by Vassili Verestchagin, the painter of battle scenes. The famous Russian artist arrived here to conduct an exhibition of his paintings at the art institute. He announced his intention to devote two years or more to the work of portraying on canvas the battle which, he thinks because of Roosevelt's elevation to the presidency, is the most interesting war scene of modern times to Americans.

**Marshal Fagin Resigns.**  
Columbus, O., Dec. 6.—Hon. Virgil J. Fagin, United States marshal for the Southern district of Ohio, resigned from the Ohio Republican state central committee. His action is the result of the circular issued to all federal officers stating that the present administration holds that membership by federal officers in any political party organization is not in accord with the spirit of the present civil service laws.

**Mayor Jones Quits.**  
Toledo, Dec. 6.—Mayor Samuel M. Jones has resigned from the board of directors of the Toledo humane society because its president Hon. James M. Brown, who is also president of the American humane society, declared that a man who abandoned his children should be put to death. Mayor Jones said he does not believe in killing anybody for crime.

**Torpedo Boat Damaged.**  
London, Dec. 6.—Another accident to a British torpedo boat destroyer, fortunately with no loss of life, has just been added to the long series of such accidents suffered by the British navy during the past few months. The torpedo boat destroyer Wizard, while steaming out from Portsmouth, collided with passenger steamer. Her bows were stove in but she managed to regain the harbor. The Wizard was badly damaged.

The large and heretofore useless peat bogs of California are now planted in celery, and this season's crop will make 1,600 car loads, all of which is to be sent East. The peat bogs are so light that horses can be driven over them only by having broad iron pads attached to their feet.

The total catch of whales this year is stated to be only 28, and the industry seems to have almost reached the limit of nothingness. Half a century ago the American whaling fleet consisted of over 700 vessels. The catch of 1864 was valued at \$21,000,000.

### SPEAKER DAVID B. HENDERSON.

When congress is in session, the most important man in Washington except the president is the speaker of the house of representatives. During the sessions of the Fifty-seventh congress this rule is as true as ever. The great debates which are to come in connection with important national problems make the wielder of the gavel in the lower house a busy and much observed official.

### THE STATE UNMARRIES—LET THE STATE REMARRY

By BISHOP WILLIAM CROSWELL DOANE

BECAUSE of the hardness of men's hearts today it becomes more and more needful to erect the barrier of stern legislation against the corrupting tide of this degrading tendency toward divorce and remarriage. Divorce granted with the right to remarry because of the cowardly desertion of a woman said to be, what never can be certainly said, inevitably insane; permission to remarry given in a adulterous case where charged on either side—as instances of seems impossible that thoughtful men should not de the church's voice, marriage and divorce, or divorce which we mand the warning of

It is not really is remarry all have to deal with. The church has no right, no power and no connection with any divorce.

THE STATE UNMARRIES: LET THE STATE REMARRY THOSE WHOM SHE UNMARRIES. AND LET THE CHURCH STAND FIRM UPON THE DECISION THAT SHE WILL REMARRY NO ONE EXCEPT THOSE WHO ARE UNMARRIED BY THE PUTTING ASUNDER OF GOD.

## AUTO-COACH

Manager James Mills of the Newark Auto-Coach company, announced this afternoon that the first of the electric automobiles will be started tomorrow morning at 6 o'clock and will run till 10 p. m.

Until the second coach which is now on the way to Newark from the factory in the east, arrives, and the winter top is built for it here, the company will run coach No. 1 from Charles street down Third street to the northwest corner of the public square, making the round trip every 20 minutes. When both coaches are in operation the route will include a trip around the square.

The coaches will not carry conductors, but fare boxes will be used for receiving cash or tickets. The operator will be provided with tickets, 7 for a quarter, or 30 for a dollar, and will also make change for passengers who wish either to purchase tickets or pay the cash fare, 5 cents.

## JUDGE PHILLIPS

Scored the Jury for Acquitting Willard Who Was Rearrested for Hamilton Robbery.

Cleveland, Dec. 6.—George Willard, accused of stealing \$15,000 worth of diamonds from Sigler Bros. here, was acquitted by the jury here today.

Judge Phillips after scoring the jury mercifully for the verdict, discharged it. He said Willard was a known crook. His intent was proved to be larceny and he was in the store when the robbery occurred. Willard was rearrested on leaving court for the diamond robbery at Hamilton.

## LUCKY STOOP

THE WANDERER AROSE TO FIND HIMSELF RICH.

Dayton Man Accidentally Made Great Discovery in Washington State Recently.

Dayton, O., Dec. 6.—A. E. Mohr is home from Spokane, Wash., with prospects of becoming a multi-millionaire through the accidental discovery of gold in the Pierce City District and under extraordinary circumstances. He left here last summer, after working at house painting for years.

One day he expressed a desire to witness the operations of a gold mine and was escorted by a veteran miner. The works having suspended, the two separated, and for 36 hours Mohr wandered through forests and over mountains utterly lost to the world.

He was in despair, hungry and thirsty, and about ready to give up, when he discovered a spring. After quenching his thirst he lay down and glittering nugget attracted his attention. In ignorance of its value, he cut into it with his knife, and at that moment espied a man in a gulch several hundred feet away. The newcomer proved to be a miner, who jumped with joy when shown the nugget. The claim was "grub-staked" immediately, and the stranger given a one-eighth interest. Mr. Mohr again found civilization, reported the matter, and John J. Hall and E. A. Hochwalt of Dayton made the trip to Washington to investigate. An expert made a most favorable report and a large company is now being formed to establish the mine and develop the property.

Mr. Mohr is accompanied by Charles Gifford, Vice President of the company, who says that the prospects are unlimited, and that if the body of ore continues to a depth of 100 feet the richest mine on the Pacific coast has been struck.

## THE COURTS

DONOVAN-BUCKEYE LAKE CASE HEARD FRIDAY.

Further Testimony Dec. 14.—An injunction Case—Realty Transfers. Court House News.

A portion of the testimony was heard Friday morning in Common Pleas Court in the case of T. O. Donovan vs. The Columbus, Buckeye Lake and Newark Traction Company et al.

The plaintiff alleges that the defendants, in the construction of the electric railway, have interfered with the approach to bridge leading to his farm. A preliminary injunction was heretofore allowed and plaintiff alleges that defendants have disregarded and disobeyed the injunction granted on the filing of the petition, and also the additional injunction granted upon an amended and supplemental petition, and are therefore, in contempt of court. The defendants deny the claim of the plaintiff and state that nothing has been done since the time of the issuance of the original injunction, that they have no intention or desire to disobey any order, and that none has been disobeyed.

Additional testimony in the case will be taken on December 14. J. R. Davies appears for plaintiff and J. R. F. Z. Gibson for defendant.

## INJUNCTION ASKED.

A petition has been filed in the office of the clerk of court, in which the State of Ohio on relation of Thomas W. Phillips, as prosecuting attorney is plaintiff, and Wm. F. Holton, David H. Pigg, Wm. M. Gutridge, as the Board of County Commissioners, A. R. Pitser, Auditor, E. T. Rugg, Treasurer and Henry Hill are defendants.

The petition sets forth a notice served upon the prosecuting attorney by Wm. M. Gutridge one of the Commissioners, in which said Gutridge says that he is a taxpayer in Licking county and requests the Prosecutor to apply by civil action in the name of the state to a court of competent jurisdiction to restrain the execution of a contract entered into between the Board of Commissioners of Licking county and Henry Hill for the construction of the sub-structure or stone work of the Ash street bridge over Log Pond Run in Newark.

The petition asks for an injunction against the Commissioners from executing said contract or any part thereof, from allowing any bill presented for the work; that the Auditor be enjoined from issuing any order for the payment of the contract price, and the Treasurer from paying any allowance on warrant of Auditor.

### TO THE PUBLIC OF NEWARK:

Having accepted the management of the New York Finance Company, branch office here, it is my intention to introduce some marked changes in a much abused line of business. I have been authorized to reorganize the plans and to loan out loans from \$10.00 up on our NEW PLAN the surplus that has accumulated, to responsible parties on their own signature.

Apply this to yourself and if you need a loan, come to us and we will accommodate you with the money and

### Best Possible Terms.

We do not wish to reflect on other Loan Companies when we state that we loan money cheaper than they do, but on account of our immense capital and business, we can loan cheaper just the same as the wholesale merchant can undersell the retail merchant.

If there is anything that you do not understand about our method, call and we will gladly explain. Courtesy and fair treatment have always been our password.

Loans made in Newark and Granville or along either road.

Very respectfully,

### COMING NEXT WEEK.

On Tuesday evening, December 10th, at Auditorium, Miss Lulu Glaser will make her bow as a star to a Newark audience. The medium of her introduction will be the new comic opera, "Dolly Varden", written especially by Messrs. Stanislaus Stange and Julian Edwards, who have written several successful comic operas—more than any other collaborators ever did with the exception of Gilbert and Sullivan. Mr. F. C. Whitney, the organizer and manager of as many comic operas, is the organizer and manager of the Lulu Glaser Opera Company. He has surrounded Miss Glaser with a cast of well known artists, who are follows:

Van Rensselaer Wheeler, Richie Ling, Mark Smith, Tom Daniel, Percy Stephens, Harry Lott, Miss Estelle Wentworth, Miss Adah Palmer Walker, and Miss Amelia Fields. "Dolly Varden" will be most sumptuously staged—the costuming and stage settings are said to be both elaborate and artistic. The opera is laid in 1730, just at the time when the splendor of the court of Louis XV was becoming famous and finding imitators in all fashionable Europe. Many of the points in the styles of female dress prevalent at that period are now coming into vogue and if the ladies of Newark desire to know what the very newest things in ladies' fashionable wear are, they should not fail to see the fine gowns and head-gear that Miss Glaser will exhibit in "Dolly Varden."

**AUDITORIUM NEXT MONDAY.** Death in its various forms is always an important factor in melodramas. If the characters do not actually meet it in some unexpected way, they escape it by some unexpected miracle. In the newest of new melodramas, "Dangers of Paris," the most stoical observer must feel a thrill of horror when he sees a man doomed to death in the white heat of a glass works furnace. Another novel effect in this play is the escape of the hero across a street in Paris on a network of telegraph wires. The play will be presented at the Auditorium next Monday night.

### AMUSEMENTS.

The negro character is always interesting and when impersonated truthfully is a study. Impersonators must be realistic to please exacting audiences. In the Blackfoot Brothers musical comedy sketch which is one of the offerings in the bill of the Al. G. Field Greater Minstrels the lights and shades and instantaneous flashes of pathos and comedy of the coon character is predominant. During the performance of this delightful sketch John Blackford portrays the character of "A Coon From Arkansaw." Born and reared in the south Mr. Blackford has had the opportunity of the genuine negro and in his characterization has brought such intelligent and artistic methods into play, that in the reproduction of the character one loses all sight of the burnt cork for the time being in the atmosphere of the plantation and the impersonator seems a genuine negro, with all the funny mannerisms which belong to the character. The lack of little skirt is a new conceit, a new idea to the minstrel stage, and is replete with the living essence of quaint and natural fun. John Blackford's portrayal of "Coon from Arkansaw," has a piece of character work true to nature and deserves favorable comparison with the work of an Irving or a Jefferson. At the Auditorium tomorrow night.

Presidents other than Washington whose faces have appeared on the stamps are Jefferson, Jackson, Lincoln, Garfield, Grant, Madison and Taylor. Of the stamps of higher values the 8-cent stamp now bears Sherman's picture, the 10-cent stamp Webster's, the 15-cent stamp Clay's, the 20-cent Jefferson's, the 50-cent Madison's and \$5 Marshall's.

## A SOCIALIST'S SAY.

German Government and Its Tariff Bill Attacked.

MEASURE WOULD CAUSE CIVIL WAR.

Only Two Parties in Germany, Said He, the Plunderers and the Plundered—Consigned the Bill and All its Advocates to Sheol—Some Very Bitter Retorts.

Berlin, Dec. 6.—The new tariff bill and its advocates were fiercely arraigned by Herr Bebel before a crowd that filled the galleries of the reichstag. As the representative of 2,800,000 voters, he lodged the Socialist protest against the "hunger duties," as he called the tariffs on grain. Herr Bebel said there were two nations in the German state, the plunderers and the plundered. "The imperial chancellor, Count Von Buelow, spoke for the former; I am speaking for the latter. Fifteen per cent of the German people are engaged in agriculture. The chancellor said the remaining 85 per cent were engaged in other occupations, and that 52 per cent of these latter were industrialists. The proposition of the government was to lay a tax of between 600,000,000 and 700,000,000 marks on food in order to make more profitable the occupation of 15 per cent of the people. Only one-ninth of the grain is imported."

Herr Bebel, inspired by the tempestuous temper of the house, exclaimed, "This bill foments insurrection. The chancellor aims to overturn social order. We shall do our utmost to send this bill to hades, and we only regret we can not send its authors and abettors there also."

Baron Von Rheinhaben, the Prussian minister of finance, advised Herr Bebel that if the Socialist Democrats stirred up rebellion the government assured them they would reap harvest of broken heads. This was greeted with cheers on the Right and laughter on the Left. Herr Moeller, the minister of commerce, said he regarded the new tariff as an effective weapon in the hands of the government to force to a conclusion favorable commercial treaties.

Graf Von Arnim, another great agrarian leader, scornfully interrupted Herr Bebel while the latter was relating an incident of a Prussian schoolgirl who wanted to go to heaven because there was no hunger there. Upon this occurrence the Socialist members of the reichstag rushed in a body toward the conservative side of the chamber, shouting "order." Interruptions of all sorts were then made. These showed the rising temper of the house. The president of the reichstag frequently rang his bell or called Herr Bebel and the other members of all political groups to order. Both Herr Moeller and Baron Rheinhaben referred to the necessity of protection from American competition. The latter described the misery caused by the Dingley tariff bill among the working classes of Germany.

### Students Weaken.

Cleveland, Dec. 6.—As a result of the threatened expulsion of a number of students at Western Reserve university and Case school, following the recent disorders in which several Casesmen were severely hazed, the students of both institutions have joined in signing pledges to the effect that all forms of hazing shall hereafter be eschewed. It is believed that the presentation of the pledge will result in the abandonment of the extreme measures decided on by the faculties.

### Bark Ashore.

Aberdeen, Wash., Dec. 6.—The French bark Ernest Reyer, 3,500 tons in ballast, bound for Portland, Or., went ashore Tuesday night off the entrance to Quinalt river, above Gray's harbor. The crew were saved, but the vessel is hard aground, the rigging and sails have been blown away, and there is little hope of getting her off. The storm is still raging along the coast.

### Couple Discharged.

Wilson, N. C., Dec. 6.—The man and woman detained here by the police under the belief that they were Miss Nellie Cropsey and her companion have been discharged from custody on information from Elizabeth City that the woman held could not be the missing girl. Miss Cropsey disappeared two weeks ago.

### Over a Hundred Drowned.

London, Dec. 6.—A dispatch from Bombay says that during the celebration of the feast day of St. Francis Xavier, Dec. 3, at the Portuguese city of Goa, on the west coast of India, the sinking of a launch resulted in drowning 149 devotees 50 yards from shore.

### As to Aguinaldo.

Washington, Dec. 6.—War department officers say the reports printed in Berlin to the effect that Aguinaldo is to be court-martialed and transported to Guam because of correspondence he has been conducting with the Hongkong junta are without foundation. Frequent mail advises reach the department from General Chaffee, the American commander of the forces in the Philippines, but they have not disclosed any correspondence on Aguinaldo's part containing evidence of conspiring against Americans.

### Carriage Struck.

Pittsburg, Dec. 6.—Frank L. Lanahan, James M. Dalby, Miss Annie D. Kearns, all of this city, and Mrs. Harper of Baltimore, were all more or less injured when a carriage, of which they were the occupants, was struck by a Consolidated Traction company streetcar. With the exception of Mrs. Harper no one was seriously injured. Mrs. Harper's injuries are most severe about the head, though it is not believed that they will be fatal.

## As a Food For the Skin.

To Make it Smooth, Healthy and Beautiful, Dr. Chase's Ointment is Hailed by Thousands of Fair Women.

Every woman, no matter how beautiful her skin, finds need at times of some preparation to overcome the redness and roughness, and to cure the pimples, blackheads and skin irritations.

Powders may cover up the disfiguring eruptions, but can never cure them, are positively injurious because they clog up the pores of the skin. Dr. Chase's Ointment is a food for the skin. It is readily absorbed, and thoroughly cures each and every skin disease, making the skin smooth, soft and clear.

No woman's toilet is complete without Dr. Chase's Ointment, for besides being the most perfect skin beautifier obtainable it can be used in a score of different ways. It absolutely cures eczema, salt rheum and the itching to which women are especially subject. The ointment does not cause pain when applied, but soothes the sore or inflamed surface. It immediately stops itching of the skin when applied.

When the feet are sore and chafed with walking an application of Dr. Chase's Ointment takes out the smarting and relieves the inflammation in a surprisingly short time. Then for burns, scalds and every sort of chafing, irritation or eruption of the skin Dr. Chase's Ointment affords a safe and certain cure. It has come to be indispensable in scores of thousands of homes in the United States. It does not cause pain when applied; 50 cents a box, at all dealers, or Dr. A. W. Chase Medicine Co., Buffalo, N. ## WHOLESALE

Lynching is Feared as the Result of the Killing of Two Whites by Alabama Negroes.

Andalusia, Ala., Dec. 6.—Twenty-two negroes are under arrest, charged with complicity in the killing of J. W. Dorsey, a merchant, and the fatal wounding of Fale Anderson, city marshal at Opp, a village near here. The negroes brought in were chased with bloodhounds and captured by the sheriff and his posse. There is great excitement here and there are fears that the friends of the dead white men will attempt a wholesale lynching. The sheriff landed the negroes safely in jail here and has taken precautions to resist a mob in case one is formed.

J. W. Dorsey and Marshal Fale Anderson went to the turpentine quarters near Opp to arrest a negro who was accused of stealing a pistol from a white man. The negro was barricaded in his cabin and fired on the men as they approached. It developed that the negro had about 50 of his fellow workmen in the house with him. A general battle ensued in which Dorsey was killed and Atkinson fatally wounded. A white man named Fitzsimmons, who was with them, was shot twice in the leg. Two negroes were killed and several others wounded. The names of these are at present unknown.

### Negro Boys' Confession.

Cleveland, Dec. 6.—Griffin Mayo, colored, and Frank Strong, white, both 16 years of age, were arrested and have confessed that they were implicated in the murder of Emil Goodman, whose store was robbed Monday night. Mayo said that a third boy killed Goodman, and the police are after him.

### Woman Murdered.

Macon, Ga., Dec. 6.—Mrs. R. J. Roland, 62, wife of a farmer living near this city, was found in her yard with her throat cut, an ax having been used. Her husband and son had gone to their work, leaving her alone. No clew has been found as to murderer.

### At the Rich Hill Mines.

Rich Hill, Mo., Dec. 6.—No important developments in the strike situation have arisen, and everything is quiet and orderly here. The sheriff of Bates county sent a telegram to Governor Dockery asking that state troops be brought here at once, but no militia have arrived yet and none is expected unless there should be more rioting. Governor Dockery ordered Adjutant General Cameron, the state labor commissioner, the state mine inspector and the state board of arbitration to come here at once and try to settle the trouble.

### Mexico Accepts.

City of Mexico, Dec. 6.—The government has accepted an invitation to send an exhibit to the St. Louis exposition, and as soon as Senor Nuncio, Mexico's representative at Buffalo, returns, he will be instructed to begin preparations for a large and comprehensive Mexican exhibit.

### Served With Farragut.

Stamford, Conn., Dec. 6.—Captain Joseph Perry Sanford, United States navy, aged 85, died at his home here. Captain Sanford was connected with the Wilkes exploring expedition around the world in 1838-42, and served with distinction in the civil war under Farragut.

## STORIES OF SINGERS

TIMES WHEN THEIR VOICES WERE OF MORE WORTH THAN MONEY.

Santley's Adventure With a Band of Mexican Bandits—Some Experiences of the Tenor Mario—How La Blanche Put a Bear to Flight.

Many years since, when traveling with some friends in Mexico, Charles Santley was captured by half-breed bandits and, being unable to pay the large ransom demanded, carried off to the mountains. Over supper the singer, by no means weighed down by his mishap, chanced to break into song, which so delighted the brigand chief that he demanded an encore.

Santley saw his chance and expressed his willingness to comply on condition that he and his companions were granted their release. The suggestion was accepted, and for over two hours was the singer's voice raised in such exquisite melody that the bandits, true to their word, allowed him and those with him to depart.

The late Joseph Maas had a somewhat similar experience. Years back, when with a companion buffalo hunting on the American prairies, he was captured by Indians and carried to their camp. When at his wits' end to extricate himself from the dilemma, his friend suggested the power of song. Forthwith he commenced an operatic selection so that delighted his captors that they loosened his bonds and urged him, at the point of their spears, to continue.

Luckily his voice had a soporific effect upon the Indians, who one by one dropped asleep until, just as he was on the point of stopping from exhaustion, the last passed into the realms of dreams. Then he and his companion quietly stole away.

His wonderful voice on one occasion placed the great tenor Mario in a somewhat invidious position. When traveling with some companions in Spain, he fell into the hands of a party of marauding gypsies, who demanded the customary ransom. Mario, tickled at the situation, answered their request in impromptu song, which he delivered with such exquisite mock dignity that his captors with unanimous acclamation elected him captain of their band. The singer diplomatically acquiesced in their decision, but in the course of the following day contrived to make his escape with his friends.

On another occasion in Madrid the same singer, as he was returning late one night from the theater where he was engaged, was arrested by the police in mistake for a political discontent. In vain he asserted his identity. He was carried before their chief, who likewise smiled incredulously at the captive's asseverations.

Greatly angered, Mario vehemently demanded that his friends should be forthwith communicated with, but the official shook his head and remarked that if indeed he were the great tenor he possessed in his voice a sure means of proving the truth of his words. Ten minutes later Mario was bowed out with many regrets and profuse apologies.

When traveling to Paris with some other ladies, Mme. Grisi had a thrilling adventure. At a small wayside station a man entered the carriage, and it soon became evident from his threatening gestures and eccentric behavior that he was a dangerous lunatic.

Though her companions were panic stricken, Mme. Grisi retained complete presence of mind and with the utmost composure began to sing. At once the maniac was quiet; his whole attention was riveted on that magnificent voice, and he remained the most appreciative of listeners until the train reached the next station, where he was secured. It transpired subsequently that he was a maniac with homicidal tendencies who had escaped from an asylum.

An amusing story is told of Lablache, the celebrated bass singer. One day as he was strolling leisurely through a French fair a cry was suddenly raised that a bear had escaped from the menagerie. The crowd fled in every direction—all save the singer, whose massive proportions precluded the idea of rapid motion. Amid the general commotion he among them all stood unmoved, calmly awaiting the advent of the ferocious beast, which sure enough came slouching rapidly toward him. When within a few feet, it halted as though to gather itself together for a final rush, when Lablache stepped forward and from the lowest depths of his immense chest sent forth such a thunderous roar that the terrified animal turned and fled.

### COLLISION

Results in Three Deaths and Injury to Thirty-eight Passengers on a Southern Road.

Malvern, Ark., Dec. 6.—Three persons killed and 38 injured is the result of a head-on collision between two passenger trains on the St. Louis Iron Mountain and Southern railroad one and a half miles south of here. The two trains were No. 3, known as the St. Louis fast mail, southbound and No. 14, known as the Little Rock and Eldorado passenger, northbound. The killed: Jerry Dickson, unknown man and unknown woman, all colored. Train No. 3 was to meet No. 14 at Malvern, but the latter train was late and No. 3 moved ahead, expecting to meet the other train at the next station. A mile and a half south of Malvern the two trains met in a terrific collision.

WIFE OF EXPRESS AGENT GETS A DIVORCE.

Circumstances of Young McMillen's Disappearance from Summit Station Recalled in Court.

Mrs. Pauline McMillen, who until recently lived at Summit Station, has been granted in the Columbus court a divorce from Walter B. F. McMillen on the ground of gross neglect of duty. Quite a story came out in the evidence. McMillen was express and railroad agent at Summit Station, Licking county. After about nine months of married life, he sent his wife to her father's for a visit of two days. He was to come after her. When he did not come, and had been absent from his post of duty for a few days the companies investigated and found that he was a defaulter for \$687. His wife was taken with nervous prostration. Her father settled the shortage and advertised for his son-in-law to return; that the shortage had been fixed up. Finally a letter came from a town in Colorado from the absent husband, who promised to send money and return, but he failed to do either. His father-in-law, who had lost both arms in the civil war by the premature discharge of a cannon, had provided the couple with a home and bought the furniture for it.

CAPTURED—Mr. Henry P. Courtier, the well known old veteran and member of the Cider and Gingerbread club of this city, says that he prevented a fellow from breaking into a bank yesterday afternoon. Mr. Courtier was walking along the street and as he passed the Newark Savings Bank he noticed a party trying to force an entrance through the front door. It was a poor lone rooster that had escaped from a farmer's wagon, and was endeavoring to find refuge. Mr. Courtier captured the chicken and took it home with him.

For one of his repasts a bat does not eat less than 13 caterpillars, and in 24 hours the smallest specimen will easily eat 80 flies or more.

### THIS AND THAT.

You can't always tell a man by the kind of tobacco he smokes. A ten dollar a week man may carry ten cent cigars and then once in a long while a sensible fellow may be found puffing a cigarette.

Santa Claus' mail is getting heavy.

Congressman VanVoorhis has introduced a bill in the House "to provide for the creation of a public building at Zanesville, Ohio" and now one of the Zanesville papers (and Republican paper too) is mean enough to call the bill a joke and to assert that it means a congressional convention is coming. Congressman VanVoorhis is a brother of Mr. S. F. VanVoorhis of this city.

Pantry shelves should be covered with white oil cloth which is easily kept clean writes the editor of Housewife suggestions in an exchange.

Many Newark women however, use plain white paper such as newspaper before it is printed. This is inexpensive and shelves can therefore be frequently recovered.

An observing writer notes that the self-made man of today starts with little means, but with a purpose to make a large success. Usually he makes some mistakes which depress him for a time, but he renews his experiments, and in most cases he learns that merchantile success depends on the sale of more goods, which means interesting more people through publicity. In other words, he depends on newspaper advertising—Philadelphia Record.

The North Third street auto coach starts one coach tomorrow. The second electric coach is now en route to Newark.

**OHIO WHEAT.**  
The United States crop and climate bulletin for November says concerning Ohio: "Dry weather has injured wheat except in the northwestern portion; in the south there was insufficient moisture for proper germination of the seed; in central and western counties the plants have grown but artists. The skillful accompaniment demonstrated their abilities as musical instruments.

### LICKING COUNTY

MEN ATTENDING HORTICULTURAL STATE MEETING.

C. W. Montgomery Writes of Visit to Lancaster's Shoe Factory—Flower Culture—Notes.

Lancaster, O., Dec. 4.—F. H. Ballou A. M. Nichol, and your correspondent for old Licking county, are attending the meeting of the Ohio Horticultural society at Lancaster. There is a fairly good attendance of the members from different parts of the state, and the exhibits are good, especially flowers. The Reform Farm makes a good exhibit and Mr. Imray of Zanesville showed carnations and chrysanthemums that would astonish Newark folks.

Mr. N. Beilharz, an elocutionist, who has been giving entertainments through Licking county, kindly took Mr. Ballou and your correspondent in toe and going to the Godman shoe factory where Mr. Beilharz's brother is foreman, we were shown through.

It is marvelous. Each girl, man or boy has his particular part to perform. With one machine a man and boy have nailed the heels on 200 dozen pairs of shoes in a day. At one machine a girl put a lot of "eyes" in a hopper, placed the leather in position, put her foot on a treadle and the machine just "shot" the eyes into the shoes, and in the space of one minute that I watched her she "shot" the eyes in a half dozen pairs of shoes. But I was told that any ordinary man or boy or girl could learn to operate one of these machines in two weeks' time.

Now, here, Mr. Editor, I would like to call your attention to an idea I have always thought that labor should be paid according to ability and skill. A boy, girl or man enters a factory and in two weeks' time learns the "trade." A girl comes to your home and it may take a year to learn the details of cooking and good housekeeping. A boy comes to my farm and it may take five years to learn all the business. Now, which should have the better pay?

I see that Mr. Ballou in his notice for our district makes mention of the Crimson Rambler rose as noticed in several of Newark's yards last spring. It certainly is a hardy climber and elegant for hiding unsightly objects of any kind, as well as for a prominent place on the lawn. Will give you fruit notes next week.

CARY W. MONTGOMERY.

**TO THE TEACHERS.**

It has been reported to me that a person representing a circulating library known as The Library Union, has been using the examiner's names to induce teachers to invest.

I wish to say that I have not and do not intend to recommend anything of the kind. I was asked to recommend The Library Union, but refused to do so.
